II. DUES

The Brazil-U.S. Business Council offers two distinct levels of annual membership: Board Level and Corporate Level. While both tiers provide full member services, our Board Level offers more exclusive access to business and government leaders, greater influence in shaping the council's advocacy efforts, increased branding, and potential representation on the council's Board of Directors. In short, the Board Level is geared towards companies looking to play a larger role in the U.S.-Brazil partnership. For those researching the two-way street of U.S.-Brazil business relations, our Corporate membership offers a resourceful way to do so. Please see our website at www.brazilcouncil.org/membership for more details.

Please choose a Level of membership:

- Board Level: \$20,000 Corporate Level: \$10,000

III. TASK FORCES AND WORKING GROUPS

To serve the specific interests of our members, the Brazil-U.S. Business Council offers internal committees for sector specific advocacy. Each committee provides a forum for members with likeminded business interests to meet and focus their collective efforts on advocating greater access within their sector. Both Board and Corporate Level membership allow member companies to have an unlimited number of company employees participate on the committees of their designation.

Please choose any number of committee(s) your company wishes to participate in and indicate your company contact for the committee.
